

Power BI Dashboard Outline (ScreenSense Project)

1. Dashboard Page 1 — Overview of Screentime

Purpose: Give a quick summary of the dataset.

KPIs (Top cards):

- Total Kids in Dataset
- Average Daily Screen Time
- Max Screen Time
- Percentage Exceeding Recommended Limit

Charts

1. Histogram

- Distribution of Average Daily Screen Hours
- Shows how many kids fall in different screen-time ranges.

2. Donut Chart

- Exceeded Recommended Limit

3. Bar Chart

- Age Band vs Avg Screen Time

4. Bar Chart

- Gender vs Avg Screen Time

Filters (Slicers)

- Age Band
- Gender
- Urban/Rural
- Device Type

Dashboard Page 2 — Device & Activity Analysis

Purpose: Understand how kids use screens.

Charts

1. **Stacked Bar Chart**
 - Primary_Device vs Activity_Category
2. **Bar Chart**
 - Primary Device distribution
3. **Treemap**
 - Activity_Category
4. **Stacked Column Chart**
 - Device Type vs Avg Screen Time
5. **Heatmap**
 - Device Type × Activity Category

Dashboard Page 3 — Weekday vs Weekend Patterns

Purpose: Show habit differences.

Charts

1. **Clustered Column Chart**
 - Weekday vs Weekend Screen Time
2. **Box Plot**
 - Screen Time Distribution by Day Type
3. **Line Chart**
 - Avg Screen Time Trend
4. **Stacked Bar**
 - Activity Category × Day Type

Dashboard Page 4 — Demographic Insights

Purpose: Understand which groups use screens the most.

Charts

1. Clustered Bar

- Urban vs Rural screen time

2. Stacked Bar

- Gender × Activity Category

3. Bar Chart

- Age Band × Device Type

4. Heatmap

- Age Band × Activity Category

Dashboard Page 5 — Cohort Analysis

This is **Milestone 3 (Week 5)**.

Charts

1. Heatmap

- Age Band × Device Type

2. Stacked Bar

- Activity Category × Exceeded_Recommended_Limit

3. Heatmap

- Health_Issues × Screen Time Category

4. Matrix/Table

- Cohorts like

Age Band × Device × Activity

Dashboard Page 6 — Key Insights Page

Purpose: Final conclusions.

Include **text boxes with insights**, such as:

- Kids using **portable devices spend more screen time**.
- **Weekend usage is significantly higher**.
- **Recreational activity dominates screen usage**.
- Certain **age groups exceed recommended limits more often**.

Filters to Add on Every Page

Use **slicers** for:

- Age Band
- Gender
- Urban/Rural
- Device Type
- Activity Category
